DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. **Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morita (5,628,765) in view of Czernecki et al. (5,356,420).** Morita discloses the lancet device substantially as claimed, including a housing (16), a cocking seat (34), a lancet (46), a biasing assembly (54), an engagement element (48a) that engages the cocking seat to hold against the force of the biasing assembly (see figure 13), and a release element (68) that engages and pivots the engagement element to release it from the cocking seat to allow the force from the biasing assembly to move the lancet distally. The cocking seat remains stationary relative to the housing. The release element is actuated from the exterior (at 42). However, Morita does not disclose the engagement element is single use and breaks upon disengagement from the cocking seat. Attention is drawn to Czernecki reference, which teaches the use of breakable engagement elements (11) that break to prevent reuse of the device. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to make the engagement elements of Morita breakable, as taught by Czernecki reference, to prevent reuse of the device.

Response to Arguments

3. Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

5. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
